

FISCAL NOTE

TO: Chief Clerk of the Senate
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: April 11, 1995

SUBJECT: **HB 338 - SB 535**

This bill, if enacted, will provide that in those municipalities which already operate a sewer system and have the authority to require individuals to hook onto the system if it is available, may also require that individuals hook onto the water system.

The fiscal impact on local governments from enactment of this bill in and of itself is estimated to be minimal since the provisions of the bill are permissive.

The fiscal impact from enactment of this bill is estimated to be an increase in local government expenditures to the extent additional water lines are established and an increase in local government revenues to the extent additional revenues are generated by individuals hooking onto new water extensions. A reasonable estimate of the impact cannot be determined but is estimated not to be significant.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
